

Love Don't Make It Right

Ashford & Simpson

Love don't always make it right
Love can't fill those empty nights
Love don't always make it right

Some times you gotta fight
To get it right
Some times you gotta scream
Some times you gotta act darn right mean

And turn the other way
Don't are what they say
And if they ask you why
Look 'em dead in the eye and say

Love don't always make it right
Love can't fill those empty nights
Love don't always make it right

Some times you gotta fuss
Get serious
Some times you kick back
Some times you don't think before you act

Just turn on the heat
And don't be too sweet
Usin' common sense
Is no kind of defense because

Love don't always make it right
Love can't fill those empty nights (No)
Love don't always make it right

Some times you gotta fight for it
Some times you gotta have a fit
Well, some times you gotta open fire
Tell him just what you desire

Some times you get low down
And let out the scream
Ooh... some times you gotta get up
Tell 'em, tell 'em what you mean because

Love don't always make it right
Love can't fill those empty nights (No, no)
Love don't always make it right {No, no, no} (Oh)

Love don't always make it right (Well)
Love can't fill those empty nights {Listen}
Love don't always make it right {Right} (No)

Love don't always make it right
Love can't fill those empty nights
Love don't always {Always} make it right (Make it right) {Make it right} (Oh
...) {Ooh, hoo}

Love don't always make it right (Yeah)
Love can't fill those empty nights

Love don't always (Don't always) make it right (Ooh...) {Listen to me, listen to me}

Love don't make it right (Oh, some times you just got to fight)
Love don't make it right {Some times you get on down}
Love don't make it right (We got to keep on tryin')
Love don't make it right {Can't you see what you're doin' to me} (Oh)

Love don't always make it right
Love can't fill those empty nights
Love don't always (Don't always) {Oh} make it right {No} (No, no, no, ooh)

Love don't always make it right
Love can't fill those empty nights (Ooh)
Love don't always (Oh) make it right
