

# Top Of The Stairs

Ashford & Simpson

I'm insisting that you listen, try and understand  
I was wrong without reason in my demands  
Can you ever forgive the way I behaved  
Don't worry about it, baby  
I know just how this love can be saved

Chorus:

Take me up  
To the top of the stairs  
We'll get lost  
In the darkness waiting there

I'm depending on your wisdom to reconsider  
Wounded pride held me captive, but I can deliver  
You don't have to talk no more  
It goes without saying  
Then I'm just gonna lock the door  
Pretend it was a game we were playing

Repeat Chorus

I pretend I'm busy as if you didn't know  
When I'm out of your arms, there's no place to go  
It's a negative reaction; now it's clear to us  
But from now on, but from now on  
We're gonna stick to the feelings we trust

Take me up  
To the top of the stairs  
We'll get lost  
In the darkness waiting

Repeat Chorus

Let's forget all our cares and climb the stairs  
Let's climb the stairs

Take me up  
To the top of the stairs  
We'll get lost  
In the darkness waiting

Repeat Chorus
