

Catch Me When I Fall

Ashlee Simpson

Is anybody out there
Does anybody see
That when the lights are off something's killing me

I know it seems like people care
Cause they're always around me
But when the day is done and everybody runs
Who will be the one to save me from myself
Who will be the one who's there
And not ashamed to see me crawl
Who's gonna catch me when I fall
When the show is over
And it's empty everywhere
It's hard to face going back alone
So I walk around the city
Anything, anything to clear my head
I've got nowhere to go nowhere but home

Who will be the one to save me from myself
Who will be the one who's there
And not ashamed to see me crawl
Who's gonna catch me when I fall
It may seem I have everything
But everything means nothing
When the ride that you've been on
That you're coming off
Leaves you feeling lost
Is anybody out there
Does anybody see
That sometimes loneliness is a part of me
Who will be the one to save me from myself?
Who will be the one who's there
And not ashamed to see me crawl?
Who's gonna catch me when I fall?
Who's gonna catch me when I fall?
Who's gonna catch me when I fall
And not ashamed to see me crawl?
Who's gonna catch me when I fall?
