

# Catch Me When I Fall

Ashlee Simpson

Is anybody out there  
Does anybody see  
That when the lights are off something's killing me

I know it seems like people care  
Cause they're always around me  
But when the day is done and everybody runs  
Who will be the one to save me from myself  
Who will be the one who's there  
And not ashamed to see me crawl  
Who's gonna catch me when I fall  
When the show is over  
And it's empty everywhere  
It's hard to face going back alone  
So I walk around the city  
Anything, anything to clear my head  
I've got nowhere to go nowhere but home

Who will be the one to save me from myself  
Who will be the one who's there  
And not ashamed to see me crawl  
Who's gonna catch me when I fall  
It may seem I have everything  
But everything means nothing  
When the ride that you've been on  
That you're coming off  
Leaves you feeling lost  
Is anybody out there  
Does anybody see  
That sometimes loneliness is a part of me  
Who will be the one to save me from myself?  
Who will be the one who's there  
And not ashamed to see me crawl?  
Who's gonna catch me when I fall?  
Who's gonna catch me when I fall?  
Who's gonna catch me when I fall  
And not ashamed to see me crawl?  
Who's gonna catch me when I fall?
