I Am Me

Ashlee Simpson

What's she got that I don't have
Does she fill those spaces that I left you
When you wake up everynight
Does the scent of regret ever haunt you

Put this under your skin
I am me and I won't change for anyone
Me and I won't change for anyone
For anyone like you

Does the weight of consequence Drag you down until it pulls you under Does she lend an eager hand to save you From the future of being with her Are you with her?

Put this under her skin
I am me and I won't change for anyone
Me and I won't change for anyone
For anyone like you

Why would I, Why would I change Why would I change Put this under your skin
