

# I Buried Your Love Alive

Ashley Monroe

Woke up this morning in a cold, cold sweat  
Heart broke and beating out of my chest  
I cried out your name against my will  
A memory I can't kill

I buried your love alive (Buried your love alive)  
I buried your love alive (I buried your love alive)  
I buried your love alive (Buried your love alive)  
Deep inside me, there's a shallow grave  
That haunts me every day, yeah  
I buried your love alive

Getting tired and I don't wanna deal  
You left me holding too damn much to feel  
So I found a bottle, drank some booze  
I did what I had to do, yeah

I buried your love alive (Buried your love alive)  
I buried your love alive (I buried your love alive)  
I buried your love alive (Buried your love alive)  
It drives me crazy and it makes me cry  
Wish I could make it die  
I buried your love alive  
Yes, I did

I got what I wanted, I guess  
I confess I did not want to let you go

So I buried your love alive  
Yeah, I buried your love alive  
Oh, no  
Oh, I buried your love alive (Buried your love alive)  
Oh, no (I buried your love alive)  
Oh, no, I buried your love alive

Woke up this morning in a cold, cold sweat  
Heart broke and beating out of my chest  
I cried out your name against my will  
A memory I can't kill
