

Feel So Alive (Dacav5 Remix)

Ashley Parker Angel

Ashley Parker Angel
I feel so alive
I feel so alive
Yea
I feel so alive
I feel so alive
I gotta get where I'm goin man
I dont wanna quit
Feelin so alive but something gotta grip
Holdin me back but I'm breakin the chains
Wanna keep movin then I gotta regain composure
I dont wanna sell myself short
Or fall for the same tricks the spell boy
Time is switching gotta show your gifted
Gotta get so far theres no close in the distance

Red lights flashing,
I keep driving through,
31st of December,
Photographs I never took of you.
Yeah, I start to remember,
The broken moments that I might have thrown away,
I don't care, I'll be okay.

Got no way of knowing exactly where I'm going,
But I feel so alive.
Everything is changing, life is rearranging,
But I feel so alive,
So alive.

A payphone calling, it's so hard to forget,
Can you forgive me?
Know I'll never be what you expect,
I'm not sorry.
For every moment that I'm making a mistake,
I bend, but I won't break.

Got no way of knowing exactly where I'm going,
But I feel so alive.
Everything is changing, life is rearranging,
But I feel so alive,

'Cos I been so far, I'm halfway there,
Just over the edge and I won't be scared.

Everything is changing, life is rearranging,
But I feel so alive,
So alive.

How would it be,
How would it be if you could finally accept that this is me?

Yo check it
Yo theres no need to frat
This is my life and I live it on the edge
Dont worry baby
Cuz theres no need to get upset

So let go and join me instead

Hey

With no regrets live life to the fullest with out the bullshit

Hold my hand and dont you forget I have no way of knowing

Where I'm going but I'm all for it

Got no way of knowing exactly where I'm going,

But I feel so alive.

Everything is changing, life is rearranging,

But I feel so alive,

'Cos I been so far, I'm halfway there,

Just over the edge and I won't be scared.

Everything is changing, life is rearranging,

But I feel so alive,

So alive.

Whoa, whoa

Whoa, whoa

Gonna make it through, gonna make it through,

Gonna make it through, gonna make it through
