

# Don't Touch (The Zoom Song)

Ashley Tisdale

Zoom zoom in under my skin  
Gotta slow down now to begin  
Baby don't rush you can look but don't touch  
You think you know  
When you see me in my videos  
How the story goes  
But that's just the side I expose  
Look through the lens  
You see my body, not who I am...  
So don't pretend  
And try to act like you're my boyfriend  
You wanna get somewhere  
Then boy don't touch me there  
Just get up close and personal, personal

[Chorus:]

Zoom zoom in under my skin  
Gotta slow down now to begin  
Baby don't rush you can look but don't touch  
Zoom zoom  
In...to my head  
Gotta know me to be my man  
Boy prove your love  
You can look but don't touch

You won't behave  
You're getting all up in my face  
Barely know your name, you're tryin' to score  
But it's not a game  
Boy get a clue yeah,  
You gotta spend the time  
Pay your dues following the rules if you want me to want to be with you  
You wanna get somewhere  
Then boy don't touch me there  
Just get up close and personal, personal

[Chorus]

Don't you dare  
Touch me there  
If you want to get somewhere  
Zoom in get to know me, boy  
Don't rush  
Zoom in if you want me, boy  
Don't touch

[Chorus]
