Don't Touch (The Zoom Song)

Ashley Tisdale

Zoom zoom in under my skin Gotta slow down now to begin Baby don't rush you can look but don't touch You think you know When you see me in my videos How the story goes But that's just the side I expose Look through the lens You see my body, not who I am... So don't pretend And try to act like you're my boyfriend You wanna get somewhere Then boy don't touch me there Just get up close and personal, personal [Chorus:] Zoom zoom in under my skin Gotta slow down now to begin Baby don't rush you can look but don't touch Zoom zoom In...to my head Gotta know me to be my man Boy prove your love You can look but don't touch You won't behave You're getting all up in my face Barely know your name, you're tryin' to score But it's not a game Boy get a clue yeah, You gotta spend the time Pay your dues following the rules if you want me to want to be with y ou You wanna get somewhere Then boy don't touch me there Just get up close and personal, personal [Chorus] Don't you dare Touch me there If you want to get somewhere Zoom in get to know me, boy Don't rush Zoom in if you want me, boy Don't touch [Chorus]
