

# Not Like That

Ashley Tisdale

I feel oh, so glamorous  
Lookin' super fabulous  
Sometimes I'm insecure  
Something I can't ignore  
All the flashy cameras  
Try my best to handle it  
I'm just the girl next door  
I can hear the rumors take off...

[Chorus:]

All the girls in the club got their eyes on me  
I can tell by the look that they want to be  
Be hot, hot, hot like that  
But it's not, not, not like that  
All the girls in the club got their eyes on me  
They put me down because of jealousy  
But I'm not, not I'm not that girl  
And it's not, not, no, it's not my world

So many girls be checkin' my style  
Checkin' my style, checkin' my style  
So many girls be checkin' my style  
But I don't even care, no  
I move in mysterious ways, ways that got them curious  
They're looking at what I'm wearing  
Standing on the sidelines staring  
Taking every chance I get  
To find who I'm going with  
I just wish they'd see, what I'm like in real life

[Chorus]

So many girls be checkin' my style  
Checkin' my style, checkin' my style  
So many girls be checkin' my style  
But I don't even care, no  
What's good I'm weak no longer  
In life it's making me stronger  
What I like I'm a get that  
Like a quick cat, no i won't quit that, you heard me  
You'll find that I'm just like you  
And I do the same things you do  
The type of chick that hits spots, in my flip-flops  
Listening to Hip-Hop, you feel me

[Chorus]

So many girls be checkin' my style  
Checkin' my style, checkin' my style  
So many girls be checkin' my style  
But I don't even care, no
