Not Like That

Ashley Tisdale

I feel oh, so glamorous Lookin' super fabulous Sometimes I'm insecure Something I can't ignore All the flashy cameras Try my best to handle it I'm just the girl next door I can hear the rumors take off...

[Chorus:] All the girls in the club got their eyes on me I can tell by the look that they want to be Be hot, hot, hot like that But it's not, not, not like that All the girls in the club got their eyes on me They put me down because of jealousy But I'm not, not I'm not that girl And it's not, not, no, it's not my world

So many girls be checkin' my style Checkin' my style, checkin' my style So many girls be checkin' my style But I don't even care, no I move in mysterious ways, ways that got them curious They're looking at what I'm wearing Standing on the sidelines staring Taking every chance I get To find who I'm going with I just wish they'd see, what I'm like in real life

[Chorus]

So many girls be checkin' my style Checkin' my style, checkin' my style So many girls be checkin' my sytle But I don't even care, no What's good I'm weak no longer In life it's making me stronger What I like I'm a get that Like a quick cat, no i won't quit that, you heard me You'll find that I'm just like you And I do the same things you do The type of chick that hits spots, in my flip-flops Listening to Hip-Hop, you feel me

[Chorus]

So many girls be checkin' my style Checkin' my style, checkin' my style So many girls be checkin' my style But I don't even care, no
