

# Own The Night

Ashlyne Huff

I'm gonna round up all my people  
We run this town we own the night, oh  
It feels so right should be illegal  
No breaking 'till we see the light, oh

No one's gonna tell us what to do, do  
With my girls and stomping to the beat in Gucci boots, boots  
You know that we can start a riot, we're never going quiet  
We're dancing on the ceiling tonight, tonight

CHORUS:

Heart's on fire, love's on ice  
We don't care we own the night  
Feel alive, touch the sky  
Don't look back just look around, we own the night  
Oh oh, oh whoah, oh whoah, own own the night  
Oh oh, oh whoah, oh whoah, own own the night

Tell everybody it's the sequel  
We gonna start it up again, oh  
Let's turn it up until it's lethal  
Cause it's too low on volume ten, oh

No one's gonna tell us when to stop, stop  
With my boys and rocking out and blowing through the top, top  
You know that we can start a riot, we're never going quiet  
We're dancing on the ceiling tonight, tonight

(CHORUS)

I'm here today, tomorrow night be gone  
I'm gonna lose the day and take the night by storm  
Come on and let your hair down  
Go on throw your hands out  
Let me see you rock the room  
People in the front now  
People in the back now  
We got nothing, we got nothing to lose

(CHORUS)
