

## For My Sun

Ashram

I want to give you summer in love,  
I want to leave over my pain,  
And we will dance all the night  
Behind the stars and upon the moon.

And I'll wish your heart  
And I'll kill the pain  
In summer  
And I'll see...

It was her, tomorrow's discovery  
It was her, I depend from your heart today

I want to give you summer in love,  
I want to leave over my pain,  
And we will dance all the night  
Behind the stars and upon the moon.

And I'll wish your heart  
And I'll kill the pain  
In summer  
And I'll see...

It was her, tomorrow's discovery  
It was her, I depend from your heart today
