

Look It Up

Ashton Shepherd

The word is faithful, look it up
It don't mean sneakin' around
Behind my back like you ain't gettin' enough
How 'bout forever, just look it up
It means through thick and thin and
Pitchin' in even when the times get tough

The word is easy, look it up
And you'll see a picture of that piece of trash
Ridin' 'round in your pickup truck
Let's try liar, just look it up
But you'll need boots to wade through all the bull
You tell me when you come home drunk
It's just like you to be so clueless
Cause you never thought I'd do this

I said go, goodbye, get lost, get out, get gone
The word is over
Look it up

You said you're sober, look it up
It's right next to hell is freezin' over, flyin' pigs,
And all that stuff
And how bout baby, look it up
It's what you call me and it's how you act
Every time I call your bluff
It's just like you to keep denyin'
Save your whinin' and your cryin'

I said go, goodbye, get lost, get out, get gone
The word is over
Look it up

The word's forgiveness, look it up
It's what Jesus has in store for you
But I don't no matter what
Quit your beggin' and your prayin'
Can't you hear what I've been sayin'?

I said go, goodbye, get lost, get out, get gone
The word is over
Look it up

Asshole

Just look it up, look it up
