

# More Cows Than People

Ashton Shepherd

Bobby said, I gotta get outta this town  
Pulled up the roots that his Daddy laid down  
Country boy thought he'd try the city life  
Tired of workin' the dirt, watchin' the sky  
I won 50 bucks off of Bobby's little sister  
She said he'd last a month, I said it'd be quicker  
Bobby said, it wasn't what he thought it was  
He had to come back to the place he loves

Cause there ain't much of nothin' out here  
Just a bunch of fence and pasture  
Grain elevators and a couple old tractors  
Little bitty church, big ole steeple  
Ain't no noise, no red lights  
Ain't no buildings messin' up my moonlight  
Ain't no doubt, why I live out where there's more cows than people

I saw on the news where the interstate  
Might be movin' out this way  
To make this a better place to live  
Well hell, I like it just like it is

Cause there ain't much of nothin' out here  
Just a bunch of fence and pasture  
Grain elevators and a couple old tractors  
Little bitty church, big ole steeple  
Ain't no noise, no red lights  
Ain't no buildings messin' up my moonlight  
Ain't no doubt, why I live out where there's more cows than people
