

Come On

Asia Cruise

[Verse 1:]

Been waitin', frustrated, lonely, cold feet, got you taking ya time
Cupid told me hold on sometimes love is blind
(In a shot) dead and center, it's evident, it was all stressed thoughts who
lost their way
We just need some time to see

[Pre-Chorus:]

(Baby) don't you see the signals, pointing my direction?
(My lovee) yeaaaaaaaaa
(And maybe) you just need a minute, but I'm tired of guessin'
(Ohhh uh uh uh) yeaaaaa

[Chorus:]

Baby you need to come on, come on, come on, come on
Cause you taking way to (taking way) you taking way to long
You need to come on, come on, come on, come on
Cause you taking way to (taking way) you taking way to long

[Verse 2:]

One reason, unneeded, past and present could that be it?
Ya scared, did you read somewhere that you should take it slow?
(Cause I feel) stars are lining, it's oh so rare
Got my heart and mind on one accord, think it's time that you rebel

[Pre-Chorus:]

(Baby) don't you see the signals, pointing my direction?
(My lovee my love) yeaaaaaaaaa
(And maybe) you just need a minute, but I'm tired of guessin' (Ooohh)
(Ohhh uh uh uh) yeaaaaa

[Chorus:]

Baby you need to come on, come on, come on, come on
Cause you taking way to (taking way) you taking way to long
You need to come on(yea), come on(yeaa), come on(yeaaa), come on
Cause you taking way to (taking way) you taking way to long

[Hook:]

All it takes is hello
Drop ya guard and come on
Ain't no need to be shy (Ain't no need)
This was meant to go right(this was meant to go right)

It's a magical thing(It's a magcial thing)
Combining you and me
I'm just waiting for you
Tell me what you gonna do

Let it breathe...

I'm ready for you...
If you're ready for me
I'm ready for youuu
If you're ready

[Chorus: x2]

Baby you need to come on, come on, come on, come on

Cause you taking way to (taking way) you taking way to long
You need to come on(yea), come on(yeaa), come on(yeaaa), come on
Cause you taking way to (taking way) you taking way to long

Let it breathe...

I'm ready for you...
If you're ready for me
I'm ready for youuu
If you're ready
