

# I Know How You Feel

Asia

Midnight,  
Far light,  
Sympathy.

Hold on,  
Sit tight,  
Talk to me.

Tell me,  
Cause I know how you feel.

You're destined you,  
To hold on to,  
The fear inside.

So let it go,  
With tears of gold,  
Purify.

Cause I know,  
I know how you feel.  
yeah I know,  
I know how you feel.

Somehow we find ourselves,  
where others will not dare to go.  
Our lives become intertwined,  
Now you know this will always be so.

Daybreak,  
This heartache,  
Will be gone.

Black clouds will clear,  
Then disappear,  
Here comes the Sun.

I know,  
I know how you feel.  
Yeah I know,  
I know how you feel.

It's all right,  
It's OK,  
Just lean on me.

Trust me,  
And you'll see,  
How it can be.

Tell me,  
I know how you feel.  
Yeah I know,  
I know how you feel.
