Girl, seeing it in your face In time, your eyes meet mine So fast, shooting off into space You turn my life, upside down

I, I would die for you
I would die
I, I would die for you
I would die for you

And now, where do we go from here?
Don't think twice, it's so clear
This time, then it could be too late
Let's go now, don't hesitate

I, I would die for you
I would die
I, I would die for you
I would die for you

I, I would die for you
I would die
