

Light the Way

Asia

You give your innocence so easy
All too soon you'll know
Lose your fragile independence
Then you're on your own

No matter what it is, be sure it can be fixed
Letting go of yesterday
Might - just might - light the way

I keep on searching ever more, for
What I just can't see
Now I look, and find the answer
Right in front of me

No matter what it is, be sure it can be fixed
Letting go of yesterday

Might - just might - light the way
