

Love Under Fire

Asia

Love under fire
We stand in the flame
Now and forever
After the rain
When is forever?
You can take it from me
It may be never
C'est la vie

Love under fire
And we stand in the flame
Now and forever
After the rain
When is forever?
You can take it from me
It may be never
Just wait and see

You can hide in the jungle
You can climb up a tree
You can scan the horizon
Tell me what you see?
As cold as a mountain
With a heart that can freeze
There's a storm on the water
With every heart that she seas

Love under fire
