

# The Closer I Get To You

Asia

I can't begin to make no sense of it all  
Maybe I don't try enough  
But there is nothing that I wouldn't do  
I would beg, I would plead for our love

I want to know if you're just tired of me  
Or have we just grown apart?  
Our existence is just floating at sea  
Cut adrift from the people we are

There is no answer, no question, no lie  
I'm losing count of days passing by  
It's like cancer, it's consuming my soul  
Nothing there, nothing left, should I die

You can't see, what you do to me, if you did  
Then you might even try  
I cannot breathe, no way to proceed  
And I ain't got what I need to get by

The closer I get to you  
The further you push me away  
I don't know what to do  
I just don't know what to say

The closer I get to you  
The further you push me away  
I don't know what to do  
I just don't know what to say

I walk the street 'cos I don't wanna go home  
I know that something's so wrong  
I guess I just can't face the truth of it all  
And admit it's been dead for so long

If I could then I would sit with you now  
To talk, and try to make sense  
And summon every ounce of courage I have  
But I can't, for the fear is immense

Don't even need to know a reason for this  
Just leave it all in the past  
Or I will tumble down into the abyss  
And this breath that I take is my last

You can't see, what you do to me, if you did  
Then you might even try  
I cannot breathe, no way to proceed  
And I ain't got what I need to get by

The closer I get to you  
The further you push me away  
I don't know what to do  
I just don't know what to say

The closer I get to you  
The further you push me away

I don't know what to do  
I just don't know what to say

The closer I get to you  
The further you push me away  
I don't know what to do  
I just don't know what to say
