Check it out-check it out without a doubt
This is the new sound coming around
No we never lost sight of the fight on our hands
People of colour listen up we're giving you the first bite
Home grown-many seeds have been sown
We're developing our sound now it's fully blown
Creative movements-moves made to make you think
Sounds shaped to take you to the brink
Midi warriors

This is R.A.F.I.'s revenge
This is R.A.F.I.'s revenge
Equal opportunities denied to us
Yes they put us on the white list
That's why we're making a fuss
They never thought we'd get to this stage
Still they won't give us any space on their page
Mixing the rant and the rave
That's our way
But they only want to listen if we've nothing to say
No start or end points
Just dealing with this time stretch
Cos in this time dread
we're on a mission to vex
Check it out-check it out without a doubt
