Open up, open up, open up  
Open up  
Enemy, enemy, enemy  
Enemy, enemy  
Bring this  
Enemy of the enemy, who?  
Enemy of the enemy, what?  
Enemy of the enemy, who?  
Enemy of the enemy, what?  
Enemy of the enemy, who?  
Enemy of the enemy, what?  
Enemy of the enemy  
Me, me  
Babylon is really burning this time  
My chick is coming home to roost on a Soviet airline  
Climbing on the subway, burning eyes spinning head  
Walking through the station, breaking into a cold sweat  
Is the ticking time bomb in my head or your bag  
Have you been snorting white lines with president, gas  
Crawling from the wreckage of my tumblin' tower block  
Someone else had to finish the job  
It was the enemy of the enemy  
The enemy of the enemy  
He's a friend  
Till he's the enemy again  
It was the enemy of the enemy  
The enemy of the enemy  
He's a friend  
Till he's the enemy again  
Enemy of the enemy, who?  
Enemy of the enemy, what?  
Enemy of the enemy, who?  
Enemy of the enemy, what?  
Enemy of the enemy, who?  
Enemy of the enemy, what?  
Enemy of the enemy  
Me, me  
Rig a dig  
Starin' out the window at 50,000 feet  
At the mercy of the skies, no escape velocity  
And as your eyes meet my skin, see the terror on your face  
Do you want it to stop, put yourself in their place  
Where what your life is worth depends on where you live  
Too many generations down the line to forgive  
If all you knew was total war from every side  
You'd have to decide, you'd have to decide  
Who's the enemy of the enemy  
The enemy of the enemy  
He's a friend  
Till he's the enemy again  
Who's the enemy of the enemy  
The enemy of the enemy  
He's a friend  
Till he's the enemy again  
Choose the enemy, know the enemy  
Love the enemy, feed the enemy  
Sleep with the enemy, arm the enemy

Sell the enemy, bomb the enemy  
Choose the enemy, know the enemy  
Love the enemy, feed the enemy  
Sleep with the enemy, arm the enemy  
Sell the enemy, bomb the enemy  
Keep your friends close  
But keep your enemies closer  
Closer, closer, closer  
Keep your friends close  
But keep your enemies closer  
Closer, closer, closer  
This is easy, uh, they got a turban  
We don't have to know  
What's going on in the turban  
Just proceed with the story  
Choose the enemy, know the enemy  
Love the enemy, feed the enemy  
Sleep with the enemy, arm the enemy  
Sell the enemy, bomb the enemy  
Choose the enemy, know the enemy  
Love the enemy, feed the enemy  
Sleep with the enemy, arm the enemy  
Sell the enemy, bomb the enemy  
Keep your friends close  
But keep your enemies closer  
Closer, closer, closer  
Keep your friends close  
But keep your enemies closer  
Closer, closer, closer  
It was the enemy of the enemy  
The enemy of the enemy  
He's a friend  
Till he's the enemy again  
It was the enemy of the enemy  
The enemy of the enemy  
He's a friend  
Till he's the enemy again  
Choose the enemy, know the enemy  
Love the enemy, feed the enemy  
Sleep with the enemy, arm the enemy  
Sell the enemy, bomb the enemy  
Choose the enemy, know the enemy  
Love the enemy, feed the enemy  
Sleep with the enemy, arm the enemy  
Sell the enemy, bomb the enemy
