

# Tank

Asian Dub Foundation

The wheels of the tank keep turning round and round.  
How many megatons will it take to make them turn around? (x 2)  
Turn around...  
The wheels of the Shadowmen tank (x 2)  
Every man is left behind  
Every man has lost his mind  
Exorcists anthologize  
Bounce to the Shadowmen tank  
Another missile flying high  
Snaking across the desert sky  
Oil men energy strapped back  
Speed into the bank  
The wheels of the tank keep turning round and round.  
How many megatons will it take to make them turn around?  
Too slow cup with gripping hands  
Praying cowboys in the sand  
Nothing ever goes to plan  
Deep inside me tank  
Shells you booty devil's plants  
Tripping out another trance  
Buffalo soldier's higher ground  
Smoking in my tank  
Forced by forces  
My head is confused  
Sometimes I feel that I'm being used  
I press all fault to the man in robes  
But I can't see the ghosts crowding the road  
I can't see the ghosts crowding the road  
The wheels of the tank keep turning round and round.  
How many megatons will it take to make them turn around?  
Awaken Mesopotamia (x 4)  
Never left old home city Georgia  
World is just called Arizona  
Death metal getting louder and louder  
Pumping pumping in me tank  
Searching, searching  
I be searching!  
Keep on searching  
Searching for the Hindu bomb  
I'm searching for the Muslim bomb  
I'm on the lookout for the suicide bomb  
Get down on your knees and feign-quest for the bomb  
Because I'm searching for the Hindu bomb  
I'm searching for the Muslim bomb  
I'm still on the lookout for the suicide bomb  
Get on your knees, get on your knees  
And feign-quest for the bomb  
For the bomb  
The wheels of the tank keep turning round and round.  
How many megatons will it take to make them turn around?
