

## Another Bottle Down

Asking Alexandria

I'm so done with it, I won't go back again and  
I'm okay with this, that I'll be in my own  
Until the day I die, which shouldn't be that long  
So I'll just do what I do and make the most of it

I won't fall down again  
My heart's now dead and gone  
And I'm still breathing  
I made it out alive

Oh fuck this is fun I just can't believe I didn't find this before  
To just indulge even if it kills me  
Who gives a fuck if we die

Another bottle down  
You should really try it sometime  
Cause it feels so good

Without a care if a heart gets broken  
You'll all learn in the end that there's a better way  
Baby move in closer, you couldn't hurt me if you tried

I won't fall down again  
My heart's now dead and gone  
And I'm still breathing  
I made it out alive

Take a seat my dear  
Make yourself comfortable this could take a while  
Crack another, dear  
I can see now and I wouldn't change a thing  
Life should burn with such a fucking flame  
If not you've only got yourself to blame
