

Let Me Go Home Whiskey

Asleep At The Wheel

Let me go home whiskey, let me walk out that door
Let me go home whiskey, let me walk out that door
I got orders from my baby
Not to come home juiced no more
I stop by a fence to visit with a friend of mine
I just dropped in for a minute
But I over stayed my time

Let me go home whiskey, let me walk out that door
Let me go home whiskey, let me walk out that door
I got orders
Don't you come home drunk no more

Why oh why does whiskey
Make me lose my head
Got me sitting at a bar
When I should be home in bed

Let me go home whiskey, let me walk out that door
Let me go home whiskey, let me walk out that door
I got orders from my baby
Not to come home drunk no more

Yeah whiskey every morning
Whiskey every night
As long as I got my whiskey
Everything's alright

Let me go home whiskey, let me walk out that door
Let me go home whiskey, let me walk out that door
I got orders from my baby
Don't you come home drunk no more
