## Let Me Go Home Whiskey

## Asleep At The Wheel

Let me go home whiskey, let me walk out that door
Let me go home whiskey, let me walk out that door
I got orders from my baby
Not to come home juiced no more
I stop by a fence to visit with a friend of mine
I just dropped in for a minute
But I over stayed my time

Let me go home whiskey, let me walk out that door Let me go home whiskey, let me walk out that door I got orders Don't you come home drunk no more

Why oh why does whiskey
Make me lose my head
Got me sitting at a bar
When I should be home in bed

Let me go home whiskey, let me walk out that door Let me go home whiskey, let me walk out that door I got orders from my baby Not to come home drunk no more

Yeah whiskey every morning Whiskey every night As long as I got my whiskey Everything's alright

Let me go home whiskey, let me walk out that door Let me go home whiskey, let me walk out that door I got orders from my baby Don't you come home drunk no more
