

Gotta Get Over You

Aslyn

if i wanted to believe you, i guess i could
and if i wanted to understand you, i guess i would
but my days would go blank and i'd be freezing naked
'cause stripped of you, well, that's modestly all that i know
so i'm not ready to get over you 'cause

if i gotta get over you, i gotta get over every piece that puzz
led you and me
if i gotta get over you, i gotta get over feeling my heart and
tasting and seeing
if i gotta get over you, i gotta get over Earth, Wind, and Fire
change the soap in the shower
if i gotta get over you, i gotta get over singing this song for
hundreds of hours

so boy while you chip in some understanding, i'll make a deal w
ith my mess
and cleaning up what i want to BE SAYING is my first big step
when i close my eyes and everything i run into
is stubbing me with bruises of memories of you
i'm not ready to get over you 'cause

if i gotta get over you, i gotta get over every piece that puzz
led you and me
if i gotta get over you, i gotta get over feeling my heart and
tasting and seeing
if i gotta get over you, i gotta get over Earth, Wind, and Fire
change the soap in the shower
if i gotta get over you, i gotta get over singing this song for
hundreds of hours

waffle house jokes and romantic comedies
avon cologne and credit card entries
butter on popcorn and that mercury sable
the whole darn state of north carolina
my pink leather jacket and cherry hi-see
when i'm finally without you
can't figure out what'll be left of me

if i gotta get over you, i gotta get over every piece that puzz
led you and me
if i gotta get over you, i gotta get over feeling my heart and
tasting and feeling
if i gotta get over you, i gotta get over Earth, Wind, and Fire
change the soap in the shower
if i gotta get over you, i gotta STOP singing this song for hun
dreds of hours
