

# You Got Me

Aslyn

Dont wanna bite another nail and leave this hangin  
Dont wanna wait another night with you breakin  
Dont wanna know just how it feels ot see you leavin  
But i cant keep it to myself when your thinkin...

You got me bad,  
You got me good,  
You got me had,  
You got me hooked,  
When its me hangin by a moment that you snubbed along the way

Dont wanna lead you down a road that im not goin  
Dont wanna hear about that dream without you knowin  
I really dont have left a care but dont wanna feel guilty  
Biting the bullet im aware your still believing...

You got me bad,  
You got me good,  
You got me had,  
You got me hooked,  
When its me hangin by a moment that you snubbed along the way  
You got me close  
And then you jump  
My feet got cold  
Took all the fun  
And so i bite my lip and bear a smile but wont regret i dont st  
ay awhile

You wanna think you got this bagged and that i couldtn want you  
more  
But be aware that when im not there do you think you'll be so s  
ure...  
you think you'll be so sure...think you'll be so sure...

You got me bad,  
You got me good,  
You got me had,  
You got me hooked,  
When its me hangin by a moment that you snubbed along the way  
You got me close  
And then you jump  
My feet got cold  
It stole all the fun  
And so i bite my lip and bear a smile but wont regret i dont st  
ay awhile
