

You Got Me

Aslyn

Dont wanna bite another nail and leave this hangin
Dont wanna wait another night with you breakin
Dont wanna know just how it feels ot see you leavin
But i cant keep it to myself when your thinkin...

You got me bad,
You got me good,
You got me had,
You got me hooked,
When its me hangin by a moment that you snubbed along the way

Dont wanna lead you down a road that im not goin
Dont wanna hear about that dream without you knowin
I really dont have left a care but dont wanna feel guilty
Biting the bullet im aware your still believing...

You got me bad,
You got me good,
You got me had,
You got me hooked,
When its me hangin by a moment that you snubbed along the way
You got me close
And then you jump
My feet got cold
Took all the fun
And so i bite my lip and bear a smile but wont regret i dont st
ay awhile

You wanna think you got this bagged and that i couldtn want you
more
But be aware that when im not there do you think you'll be so s
ure...
you think you'll be so sure...think you'll be so sure...

You got me bad,
You got me good,
You got me had,
You got me hooked,
When its me hangin by a moment that you snubbed along the way
You got me close
And then you jump
My feet got cold
It stole all the fun
And so i bite my lip and bear a smile but wont regret i dont st
ay awhile
