

Don't seem to ever reach you
There's been a few times
I almost woke up in your eyes

Today won't start again, all over
Take off all your
I know you're not open to me
It's been a long time
You never start to see me try

Today won't start again, all over
Take off all your

coco you then believe this
I still don't know why
Why you would keep me off your mind

Today won't start again, all over
Take off all your
Can't seem to ever reach you
There's been a few times
I almost woke up in your eyes

Today won't start again, all over
Take off all your
