

## Sing child

ASP

Now - You will be mine  
this is my time  
to start a great incision  
There - can only be  
the light or me  
so make up your decision

Black Wings I spread wide open  
wipe off the cruel sun  
my pale face is the moon and  
let my children come

Sing child sing child  
better join us sing child  
sin child sin child  
to make the darkness come

I - breathe in the light exhale the night  
kneel down and pledge allegiance  
I - will let you burn and in return  
I need your full obedience

My sweat will form the new stars  
I stain the sky with white  
My children dance and sing  
with joy and with delight

Sing child sing child  
better join us sing child  
sin child sin child  
to make the darkness come

Sing child sing child ...
