## **Vault of the Vailing Souls**

**Asphyx** 

Silent whisper from the children's grave Testy the horrid deeds and grief Eternal cries echo through the vault And moan their dirge to the infanticide

Enticed children followed to the vault Trapped to satisfy his perverse need Haunted hiding place of violation Mentally disturbed by morbid passion

Vault of the narrowed vailing souls Echo of their moaning in your ears Invective unrest longing for return The silent dirge of sadness will remain
