Decaying

In stillness A silent weight Pausing as the minutes each evaporate A desire To leave a scar To raise a voice from within the dark Decaying Cascading Existence falls apart Around me Within me So I must leave my mark This is a document To prove that I was here This is a document To prove I was at all And when my voice ceases to be Will the echo still ring loudly? And when there's nothing left of me Will my memory still go on? A flicker Transitory state An echo of an instance that burns away A moment A shard of time A solitary thread that threatens to unwind Decaying Cascading Existence falls apart Around me Within me So I must leave my mark This is a document To prove that I was here This is a document To prove I was at all And when my voice ceases to be Will the echo still ring loudly? And when there's nothing left of me Will my memory still go on? Distant An approaching age When this document falls beneath another's gaze Too late We have lost the dawn The signal's loud and clear, but the transmitter's gone Cascading
Existence falls apart
Around me
Within me
So I must leave my mark

This is a document
To prove that I was here
This is a document
To prove I was at all
And when my voice ceases to be
Will the echo still ring loudly?
And when there's nothing left of me
Will my memory still go on?

This is a document
To prove that I was here
This is a document
To prove I was at all
And when my voice ceases to be
Will the echo still ring loudly?
And when there's nothing left of me
Will my memory still go on?
