

## 40 Reasons

### Assembly of Dust

40 reasons why I often wonder  
Bought a girl who lead me on through the thunder and the rain

Why don''t you ever hold me  
I don''t believe you told me

40 reasons why I am singing  
My head is turning and my heart is stinging and

You have got me on a string  
That kind of love can be a lonely thing  
growing old gives people the blues but  
growing older always gets you confused

I been working and I sit for a while  
and my mind wanders to your distant smile

I bend down to tie my shoe  
lord knows right then that I am thinking of you  
I am listening to my favorite band  
and I am wishing I was holding your hand

I keep hopin'' that one day you''ll see  
and you''ll go looking for a man like me cause  
I am like a song without notes  
with out you, without you  
I am like a little boy without hope  
without you, without you  
I am like the moon without the sun  
dark and lonely cause your the only one.  
Hear what I say  
I''m dark and lonely - I''m dark and grey  
I''m dark and lonely in and of the day  
I''m dark and lonely without you
