

# Cold War Survivor

Astral Doors

Here I am

And the band played on  
While the world was falling to pieces  
It's getting dark you see  
If you need light just let me know

Mr. President  
We don't need your stupid lies  
Making history there  
I'm telling you time is now

[Chorus:]  
Cold War Survivor, bless your heart  
Tell you story one more time  
Cold War Survivor, You are the teacher now  
Teach me more, teach me more

The parades at the Red square  
Under threat everyone is smiling  
From the divided states  
Illegal movements underground

Mr. President  
No forgiveness, no regret  
Changing history there again  
The time is now

[Chorus]

Teach me more about the cold war

I'm entertained  
Am I still sane?  
I'm of a breed that you will never ever tame  
I know for sure, I just ignore  
All the crap thrown in my face

[Lead: M. Haglund]  
[Lead: J. Nordlund]

Mr. President  
We don't need your stupid lies  
Making history there  
You know the people said stop

[Chorus]

I'm entertained  
Am I still sane?  
I'm of a breed that you will never ever tame  
I know for sure, I just ignore  
All the crap thrown in my face  
I'm the survivor
