

Man On The Rock

Astral Doors

If there's a sweet heartbreaker
You'd really try to make her
You're a loaded son of a gun
Go if your ground is shaking
And everyone is quaking
I will never, never, never let you down

Rock 'n' roll was made for children
For the kids in the heat of the night
In Rock we trust, you'll never stand alone

[Chorus:]

I'm the Man on the rock
The man on the rock
Like Jesus Christ

If you come up to my mountain to visit the apostle
You'll be King though just for a day
And there'll be music playing
While everyone is praying
And I will never be the one to let you down

Rock 'n' roll was made for children
For the kids in the heat of the night
The Astral cries, like echoes in the night
