

He played Sabbath bloody Sabbath  
In the basement people worshiped in stereo  
Best friend was Uriah, I tell you loud and clear  
Boys get ready to fight; all right we are princes of the night  
Weekend warriors, disciples of hard rock radio

[Chorus]

He was a Metal DJ  
Metal DJ; once and forever  
Metal DJ  
Like children we learned, he took us to burn

Black night and star struck  
With a whole lotta love at space station number 5  
Charlotte the harlot saw when Rosie broke the law  
Boys get ready to fight; tonight we are hungry like before  
Vinyl renegades; destroyers of public radio

[Chorus]

Our tables have turned

Metal DJ; I raise my glass  
Metal DJ; I fill my cup  
Metal DJ; I drink to you

[Solo]

He played the heavy songs  
He was our mentor  
With lessons in rock

[Chorus]

And don't you know he was a Metal DJ  
Metal DJ, playing all the heavy songs  
Metal DJ  
We lived and we learned he took us to burn  
And don't you know he was a Metal DJ  
Metal DJ; once and forever  
Metal DJ  
Like children we learned, he took us to burn  
We drink to you  
Heavy Metal DJ
