

# Night Of The Witch

Astral Doors

What's another broken bone?  
Another life to spill  
There's lady in black who feeds the darkness,  
High up on the hill

Burn her: stone her  
They know what not to do  
Kill her: take her  
She's crying over you

[Chorus:]  
She'll burn alive for the people with no souls  
Who doesn't try  
She's burning alive  
Do they cry?  
When they realized they never asked her why  
She's burning  
She's burning alive

Caught inside this evil dream,  
With this vicious love machine  
Sucking life from our senses,  
It's a game that just can't win

Stab her: Rob her  
Her time is running out  
Ban her: Break her  
She's crying in the night

[Chorus]
