

## Operation Freedom

Astral Doors

It's time to prepare for the attack  
This land is forever the darkest of black  
We will never, never, ever back down  
Start the blitz, who is blix?

The head of the UN inspectors  
They're liars and traitors  
We speak for the free world  
Not committing a crime

Attack, and then we shall protect  
Operation freedom is here  
We're saving Iraq  
Attack, let's wring that evil neck  
Ready to fight in the name of freedom

This was right, I am stronger than steel  
Though my friends say that I have deceived my belief  
I'm not breaking, shaking, quaking  
'cause I can justify all my lies

My conscience is clean ask the people  
Unenlightened by purpose  
The fraud of the century  
Not committing a crime

Attack, and then we shall protect  
Operation freedom is here  
We're saving Iraq  
Attack, let's wring that evil neck  
Live and let die in the name of freedom

Revenge of the failure  
A gift to your father  
Have I been a good boy?  
Please say that you're proud
