

## Pearl Harbor

### Astral Doors

Thousands were summoned, to protect their land  
Flag of their fathers, dear old uncle sam

This is the day the training must pay  
The enemy's here, we all know  
The futures and pasts nothing will last  
It's a nightmare but for real

Run away, madness arising  
Run away, eastern eruption, out of the sky

Pearl Harbor  
Attack of the island in the sun  
Pearl Harbor  
The battle was lost  
But the war was won

Warhawks and zeroes, evil in the air  
Death in the water, dead bodies everywhere

Dragged into war, that big ugly whore  
So vicious so greedy and dark  
It's just like today, the poor has to pay  
For the stripes and shining stars

No more fear, surf on the fire  
Raging flames burning inside this last samurai

Run away, madness arising  
Run away, eastern eruption, out of the sky

Pearl Harbor  
Set me free  
Pearl Harbor  
I'll set you free
