

# The Green Mile

Astral Doors

The sentenced:  
Forgive me father for I have sinned

Killed another man  
Blood upon my hands  
I followed the cold winds  
Tracked down by the arm of the law

The warder:  
Look at the man you are  
We'll switch off your life, it's gone too far  
From here there's no escape  
And in the death now you're bound to loose  
Your one and only wire  
More fuel to the pure

The sentenced:  
I'm on the green mile trying to get out  
Electrical ride into the light

The warder:  
And on the green mile you'll never be alone  
The guards are there beside you

The sentenced:  
So read me my last rites  
Give me just one sign  
Soon I've paid my crime  
Banished out of heaven  
Old sparky will make me go down  
And after the monsters ball  
The rookie's prepared to do it all  
This is my last goodbye  
The executioner; the lord of might

You are my only saviour  
Tried hard to be braver

I'm on the green mile trying to get out  
Electrical ride into the light

The Prison Chaplain:  
On the green mile you'll never be alone  
An angel flies above you

Green mile  
Walk the green mile  
Green mile

[Solo: Haglund]

Use your only wire  
More fuel to the pyre  
I'm here to die  
I'm on the green mile trying to get out  
Out of the cell, into the light  
On the green mile you'll never be alone

The guards are there beside you  
I'm on the green mile trying to get out  
Electrical ride into the light  
And on the green mile you'll never be alone  
Now electrified, the lightning ride

Walk the green mile
