## At the Drive-In

i'm an incision  
the kind that glistens  
and not to mention we appeal  
when we've healed  
i'm an incision, just an incision  
i've got polaroid value  
in a celluloid way

with twelve hard years of currency  
and they trade it all  
for the current scene  
i'm an incision  
the kind that glistens  
polaroid value  
celluloid way

this air condition  
is on intermission  
we're burning on the border  
like they said that we would

i'm an incision, just an incision  
the kind that glistens  
and we appeal when we've healed  
burning on the borders like they said that we would

with twelve hard years of currency  
and they trade it all for the current scene  
they're partial to the way you speak  
blue tagged, blue tagged and incomplete  
burning on the borders like they said that we would
