

# Fear No Evil

At Vance

Here in the shadows  
Where my heart  
Is livin without fear  
I keep runnin on and on  
How long does it take  
Before it stops to ache  
And when it takes  
That pain away

And in the dark  
The shining star  
Take me as I am

Fear - no evil  
Face - the eye of the storm  
Fear - no evil  
Face - The truth is plain to see

And when there's nothing  
I can't hold back  
I can't hold back these tears  
I've bee fightin all those years  
I'm fightin against the odds  
Betrayed by all these gods  
And the demons of the dark

And then the light  
Cracks the sky  
It brings me to my knees

Fear - no evil  
Face - the eye of the storm  
Fear - no evil  
Face - The truth is plain to see

Fear - no evil  
Face - the eye of the storm  
Fear - no evil  
Face - The truth is plain to see
