

# Rise From The Fall

At Vance

Invisible faces  
Whisper to me in the night  
They're speaking of places  
Men have spent lifetimes to find

As if out of nowhere  
Their shadows appeared  
Fathers and sons in search for the one  
Souls of eternity

Into the night, Reach for the sky

Guide me: You are the wise  
Take me away to your kingdom of light  
Time will prove to us all  
If I'm the one, the rise from the fall  
The rise from the fall

The journey seemed endless  
Answers were so far away  
I was running on empty  
I was down on my knees in prayer

And just out of nowhere  
The shadows appeared  
Opened the gate, they showed me the way  
The road to eternity

Into the night, Head for the sky

Guide me: You are the wise  
Take me away to your kingdom of light  
Time will prove to us all  
If I'm the one, the rise from the fall  
The rise from the fall

As if out of nowhere  
Their shadows appeared  
Fathers and sons in search for the one  
Souls of eternity

Into the night, Reach for the sky

Guide me: You are the wise  
Take me away to your kingdom of light  
Time will prove to us all  
If I'm the one, the rise from the fall  
The rise from the fall
