

Airbag Death

Atari Terror

1,2,3,4, go!
let me introduce you
my only love on this big bad world
let me introduce you
the most amazing baby
what you've ever seen
ultrahype blast engine
the newest technology
on my 3-sound horn...
my 10-sound horn...
multihyper gear-box
million watt speakers
want to goose my ears....
want to goose my ears...
golden shining buttons
xenon lamps are cutting
trought my wildest dreams
like the cover girls
and i feel like flying...
and i feel like flying in the universe!

warning! death or serious injury can occur
children 12 and under can be killed
by the airbag

i never doubt about, never doubt about
have the fastest horse, fastest mare
i never doubt about, never doubt about
have the nicest horse, nicest mare
i never doubt about...
i'm wonderful like a god
i never doubt about...

why, baby?
my baby shot me down, my baby....
my baby shot me down, my baby....
my baby shot me down!

warning! death or serious injury can occur
children 12 and under can be killed by the
airbag

i never doubt about, never doubt about
have the fastest horse, fastest mare
yea! die die die die die!
