

the blood of the evil
infects my body
in the night, hear the howling
screaming flesh chewed to the bones
bleeding, eternal terror

dying in the darkness
now one of us
bitten by the monster
now one of us

the moon is full and the world comes down
fear all sounds human beast
animal...

carnivourous
lust for human flesh
carnivourous
lust for human flesh

eternal darkness
infects all humans
children or mothers
no difference
screaming...it is your gift
bleeding ...your only fate

dying in the darkness
now one of us
bitten by the monster
now one of us

the claws on your body
and your head falls down
monster in your bowels
and the feast is

carnivourous
lust for human flesh
carnivourous
lust for human flesh
