There's a lot on my mind so I guess that I'll take it one thing at a time, still sometimes I can't help but wonder why...

I sit around all day and I waste my whole damn life away, still thinkin' bout' just what there is to say.

Should I say goodnight? ...go to bed, turn out the fucking ligh t and leave you shining in the past.

Should I try and forget? ...even though next week it's somethin q I'll regret.

Or, should I try and make it last?

I think about the day when I felt you'd throw it all away to tr y and make me feel like I'm the one.

You were my best friend, and I never ever thought those days wo uld end, but now it seems like they are gone.

What more can I say? ... I never wanted it to be this way, and w here the hell is yesterday? ... We sure had a blast!

I'm sorry that we're living in the past, should we try and make it last?
