Nights The Lights Went Out In Nyc

- The lights are out in the city tonight So close your eyes, gaze up at the heavens And see if you can point me out
- R: If I could have one wish tonight I'd wish upon a satellite To bring me back to you, to bring me back to you We spend our whole lives searching for All the things we think we want And never really knowing what we have
- 2. So many paths that we can take To bring us to our destiny, Gaze up at the heavens And see if you can point me out
- R: If I could have one wish tonight...
- *: Be careful what you wish for These stars are fading out Be careful what you wish for These stars are fading
- R: If I could have one wish tonight... (2x)
