

## A Place Like You

ATB

Pull me inside of your universe  
Far away from this cold blue earth  
Show me a place  
Where the suns don't set  
Fly me there on the tail of a comet

I know somewhere out there  
The party never ends  
And when I look in your eyes  
I swear it feel like I've been there  
Oh there's gotta be  
There's just gotta be

A place like you  
A place like you  
It's gotta be true  
There's a place like you  
A place like you  
It's gotta be true

Pull me inside of your atmosphere  
Watch me swim in your deep blue tears  
Wander for miles on your desert skin  
Where now won't end  
And tomorrow won't begin  
Cause I know somewhere out there  
The party never ends  
And when I look in your eyes  
I swear it feels like I've been there  
Oh there's gotta be  
There's just gotta be

A place like you  
A place like you  
It's gotta be true  
A place like you  
With my arms in the sky

Cause I know somewhere out there  
The party never ends  
And when I look in your eyes  
I swear it feels like I've been there

A place like you  
A place like you  
It's gotta be true  
Yeah there's a place like you
